PROVINCIAL BUDGET FOR 1882

Mr. Uriburu, the talented Finance Minister of the Province, is the first man holding the portfolio who has ever strictly complied with the Constitution, in presenting the Budget to the Chambers within a month after they meet. We warmly congratulate him on the fact, which is indeed a new departure in provincial affairs.

The following is Governor Roca's Message to the Chambers when laying the Budget before them—

B. Ayres, May 31st, 1881.

The Executive to the Legislature,

In conformity with Art. 142 of the Constitution, I lay before you in the month of May the Budget for 1882. I may remind you that no new administration has ever before been able to comply with this provision of the Law. Extraordinary efforts had to be made to do so, as 25 days were barely sufficient for us to get into the administrative harness, all the more because I had also to attend to sundry important questions which required prompt solution. In addition, the Budget had to be framed to suit the new organization of the province, owing to the cession to the Nation of this city, so long its administrative and economical centre. The task was a hard one, but it is done, and you can easily remedy any defects when studying the measure. I beg you, therefore, to take this first and most important of Provincial measures into consideration without injurious delay.

A settled government cannot be carried on without having the estimates of receipts and expenditure before it in good time, limiting the action of the Governor to supplying the legitimate wants of the governed, preventing capricious and sometimes criminal waste of public money, always the ruin of peoples. Our history in this respect is indeed a sad one: so let us shun past irregularities and, true to the Constitution, give a definite settlement to our institutions.

Hitherto only legislative, judicial and administrative expenses figured in the Budget: nothing for railways, telegraphs, banks, &c, each of such establishments having its own budget, and that unity which shows at a glance the financial state of a country was sacrificed, to the injury of the country at home and abroad, both resources and expenditure being alike underestimated. I have partly corrected this abuse by bringing the partial budgets into the general one. Want of time prevented me including also the 78 Municipal budgets, which would have completed the statement of the exact financial condition of the province. Next year I hope to do so, if you sanction my proposal that all the estimates must be printed in a single book.

The financial year began on the 1st inst. and the Budget then sanctioned is working well enough, in spite of some deficiencies which somewhat embarrass the Executive. Nothing was voted for Public Works or extra outlay under special laws, and I trust you will correct this and vote what you think proper for those purposes, and so complete the estimated ways and means in the Budget now in force.

The Budget for 1882 is based on the province being now separated from its former capital. The number of employees has been reduced so far as necessary, not to press too heavily on the Treasury.

The Judicial Powers cannot be completely reorganized until Congress provides for the administration of Justice in the capital of the Nation, and you select a new capital for the province; meanwhile I confine myself to the wants of Justice in the camp sections, leaving you to provide by a special law for the administration of Justice in the future capital. I have devoted special thought to the Camp Police: This service is the most costly item of all, but it is also the most necessary, to guarantee order, life and property. Its present 'personel' is barely sufficient for the most ordinary duties, and I would ask you to increase it, if we had the means, I can meanwhile assure you that Buenos Aires has never spent more on its Police than at present, nor has the latter ever been in a greater state of efficiency than now.

In losing the revenue derived from the city, the 'Rentas' office had to be organised on a reduced scale. Formerly it had five subordinate offices: now there are only as many desks, all in one office. One 'Colecturia' has been abolished, and one Inspector added, to see practically if the 'Colecturias' can be done away with without prejudice to the Revenue. You shall be duly informed of the result, so that you can take the necessary steps.

An indispensable increase in the 'personel' of the Accountant General's office has been made, so that an exact balance of the financial situation can at any time be struck at a day's notice.

The sum set down for the service of the Public Debt—$38,000,000 m|c—will attract your attention. With it I hope to consolidate the enormous debt due to the Provincial Bank—$267,671,300 m|c. The first step of an honourable Government is to pay its debts; but apart from this axiom of good government, the Bank now requires all its resources to convert its notes, rid the country of forced currency, and secure its own position in the future.

I will spare no sacrifice within my attributes to secure this, so essential to the present and future welfare of the province. In a few days I will lay before you my plan for arranging the debt to the Bank.

As you will see in the Budget, the General Expenditure of the Province will reach $141,796,702, as follows:—

Administrafion	$ 86,866,074
State Establishments	42,359,560
Education	12,571,068
The receipts being estimated at.....	$141,796,702
General Taxes	$ 87,400,000
State Establishments..	42,352,599
School Fund.....	12,571,068
	$142,330,628

Showing a surplus of $533,926.

To estimate the Receipts, all the Tax Laws had to be altered in the form I herewith submit to you. The city has, of course, been excluded from the calculation. With the Spirits and Tobacco Tax abolished the expenses for new Provincial buildings, and the consolidation of the debt to the Bank, it was no easy task to balance the new expenses with the old taxes. New ones had to be imposed.

As you will see, I have hit on the easiest way to arrive at an equilibrium: it will only be a temporary expedient, but it will give time for our financial condition to improve with increased prosperity, the greater value of our currency, and other elements afforded us by peace, immigration, and our fertile soil.

I conclude with assuring you that I shall always try to avoid superfluous expenses: but as regards railways, roads, bridges, telegraphs and other reproductive works, I will go the full length of the financial resources of the province. I will strive to strengthen the Bank, consolidate the Floating Debt and fight forced currency till I conquer it. It may not be the most arduous task before my Government, but I count on your aid and that of Divine Providence, to give me strength to perform it.

DARDO ROCHA,
F. Uriburu,
C. D'Amico.

THE CLOSE OF MAY.

The month of May in the River Plate always possesses a higher importance than any other month in the year, attributable, perhaps, as much to the opening of the Chambers and Congress as to its political commemorations, or its being the beginning of the winter season. The close of the month of May, therefore, may possibly possess a higher interest than the close of the other months, yet whatever interest we attach to this remarkable River Plate month, that interest will be enhanced by a comparison of our political, financial and industrial situation at its close for the last 3 years. The political change is so great that if we span the period but for 12 months we have hardly room in these columns to chronicle the difference. This day twelve months the whole market hung upon a laconic telegram from Mr Sassenberg to Mr Emilio Fernandez, the President of the Bolsa. This day two years public attention was monopolised by the great naval engagement between the Huascar and Esmeralda, whilst this day three years the deficit of 14,000,000, in the Provincial Treasury, and the various schemes to reduce Provincial expenses, were the sole topics then discussed in the papers.

That we have improved since May 1878 is perhaps as much evidenced in the price of gold and by our stock and share list as by the rapid growth of our new estancias, the rise in cattle and the peopling of lands in the South and West hitherto the domain of the Indians.

	1878	1879	1880	1881
Patacons....	31.50	33.15	30.90	28.45
Nat. Bonds..	78 5/8	69.—	80.—	98.—

Buschent. do.	75	81	91	par
Roads & Bris.	72½	74½	79⅝	2 prem.
Exchange...	49½	49	49⅜	46½

So gigantic is the contrast between the state of this country today and this time last year, that grand as are the foregoing figures they are deficient to express the change in the people and the times; nor have we the courage to throw open our last year's file and renew the dolorous tale of that dreary period: suffice it to say that the errors which were then in the ascendant have been swept for ever from the political arena, and an improved political order has succeeded, traceable not only in the price of gold and the splendid rise of all National securities, but in the appearance of the city and its streets, in the garb of the people and in their very countenances. It is not to say that change is stamped on everything since last year, but improvement is universally reflected; and if May last year closed on an anxious and divided people, this year it concluded amidst a National prosperity and happiness perhaps unrivalled by any previous month of May in the Plate.

Such very great stress is laid upon the number of new projects now before Congress and the Provincial Legislature, all with one aim, to rid us of 'curso forsozo' and improve our banking system, that it may amuse and possibly instruct many of our readers to scan the following schedule of new projects before the Chambers at the close of May 1878. Time, with its wizard wand, has carried out many of these very projects which legislators proposed, but failed to pass, and reading backward our political situation, even through the ephemeral aid of old newspapers, we find ample evidence to prove that the country is more than a match for all the blunders of its politicians; nay, more than enough for the very extravagance of its too well to-do people.

The following is the list of projects in May 1878; there is nothing now before the public to match this bankrupt schedule:—

Several new projects have been born in the last 24 hours, and it may interest our readers to call to mind those now before the Legislature:

I. The Casares project to sell the Western Railway to the Provincial Bank in lieu of 22½ millions due by the Provincial Government to said Bank.

II. Counter-project to mortgage or sell the line in London, and by putting the proceeds in Bank allow the Oficina de Cambios to resume specie payments.

III. Ex-Governor Casares's bill for allowing the Provincial Bank to wind up 'morose debtors' and give them a clean discharge.

IV. Deputy Seeber's scheme for carrying out the City Improvement Works.

V. The Casares project to order the Bank to withdraw 75 millions currency, buy gold on the Bolsa with the amount, and deposit same in the Oficina de Cambios as a first step towards resuming specie payments.

VI. Governor Tejedor's bill to burn 75 millions currency.

VII. Scheme for reform of the Provincial Bank by 9 special commissioners.

VIII. Dep. Hector Varela's project to to stop any more loans by the Provincial Bank to any Government, or Corporation.

IX. Dep. Luis Varela's project to devote the 75 millions towards making a railway to Pergamino

X. Deputy Escalante's project to reduce Senators and Deputies' salaries 20 per cent, as well as those of Judges and persons enjoying state pensions.

XI. Dep. Luis Varela's project to regulate Brokers and appoint a Bolsa Inspector, salary $96,000, to be paid out of the annual dividend.

XI. Proposal by same Deputy to invite the Argentine Government to pay 159 millions on account of its debt to the Provincial Bank, transferring the Bonds for one million sterling now held by Murrieta.

XIII. Same Deputy's project to call in all the Provincial Bank notes, burn them, and issue new ones.

XIV. Deputy Moreno's bill for the easier admission of lawyers, reducing the fee to $3,000 m|c.

XV. Governor Tejedor's proposal of Budget-reform, suspending scholars in Stockholm, Paris and Florence, and suppressing various subsidies.

XVI. ex-Governor Casares's project for a new terminus at Plaza Once, to cost 18 millions.

XVII. Another Western Railway scheme to prolong the line from Bragado to Carhue, new frontier.

THE NEW LOAN.

The success of the Railway Loan is, perhaps, the greatest victory the Argentine Republic ever achieved, since it establishes its credit abroad on a higher basis than even Argentines themselves proposed, and proves to the Government that for all future railways to be made there are millions of capital waiting in Europe for the investment.

It is hardly necessary to go back on the history of Argentine Foreign Loans to explain to our readers how much our credit has grown since Mr. Riestra placed a portion of his loan some 13 years ago at 68. Up to a year ago it was deemed impossible that the Argentine Government could negotiate a new loan either here or in Europe; and we may remind our readers that in 1879 the very Railway Works for which this loan has now been negotiated were ordered by Congress out of the traffic receipts or earnings of the Tucuman and Andine Railways. Even six months ago, when the Loan Law was just passed, the general opinion in this market was that the loan would have to be negotiated with the Provincial Bank, possibly on the same terms as the 'emission empresito' of 1876.

We have, however, thanks to the fearless stand taken by the Roca Government, escaped the meshes of another Provincial Bank loan, and scouted the fallacy of building two trunk railways out of the trifling earnings of two half-made roads.

There is no other expression for it. The last half-year has proved more than a century for this country. We have outgrown ourselves, our prejudices, our politics, our errors and our very boots. The Republic is as different to-day from what it was this time last year, morally, materially, politically and financially, as when Garay sailed up the Riachuelo. So great is the change that there is not an atom left of the Argentine Republic of 1880, and we really required some such lesson as our Railway Loan to wake us up to a full consciousness of the stupendous change that has come over the country since the Loan Law was passed.

Who ever for a moment supposed that an Argentine Loan would be subscribed 18 times over for in Europe? Had the subscriptions been for double the amount asked, we should have been all well pleased, clapped hands, cried 'hip, hip, hurrah for Roca!' and congratulated ourselves upon our improved credit. Every one would have said, 'caramba,' 'que suerte,' 'que credito, and possibly some few might have yielded to a generous enthusiasm and quaffed bumpers of champagne to the healths of Messrs. Heimendal and Cortinez.

The new Loan subscribed for twice over in Paris or in London would possibly have been more in harmony with ourselves and our ideas than the flood-tide of success which the telegram has announced. We are a small and a little people, and have to grow greatly to match the splendid country that we live in. Our views are narrowed by our errors, our judgment spoiled by our defects, and with easy train we fall into the blunder of measuring the country and its credit by ourselves and our namby-panby gains.

Everything in this Republic is at too low a standard for the world's money market to-day: our lands are selling for a bagatelle; our sheep and cows are worth double their present value; our credit is worth 18 times more than any man on the Bolsa will admit; our Foreign Debt is a fleabite; our 'curso forzoso' is a humbug; our assets are worth 18 times what they represent; the country and its credit, instead of being at a discount, is at a high premium; but the little people in the River Plate do not see this, whilst the big men in Europe acknowledge it.

General Roca, by a stroke of the pen, can pay off the whole Foreign and Home Debt of the Republic. He holds at his disposal 44,000 square leagues of the most fertile land on this continent, which he can sell to-morrow, if his Government thinks proper to issue land warrants, not at so much the acre, as the Government sells the land in the United States, but at so much the square league. The National territory in the Misiones, if parcelled out in lots of a square league, would be bought up in Europe and subscribed for more than 18 times over, if General Roca only asked the price for these lands which to-day every man in this market would consider dear. But we cannot now dwell further on the gigantic resources which the National Government holds in these public lands; we have but one remark to make, and that is, that the surprise which this loan negotiation has caused the wise men of Buenos Aires will be as nothing to the surprise which the expansion of our estancias is destined yet to cause in Europe.

Hemmed in with the Indians at Junin, Tres Arroyos, 9 de Julio and Sauce Corto, our sheep and cattle were unable to increase in the ratio which Nature on our boundless plains ordains; but with our cattle 'rodeos' stretching to the Rio Negro, and sheep 'corrals' going up on the Colorado, we have a new future before us, and if at the last Exhibition in Paris our talented representative, Dn. Rufino Varela, marked up on the Argentine stall—

60,000,000 sheep.
14,000,000 cows.

General Roca at some future Exhibition, and at no very remote date, may mark up over the Argentine flag—

100,000,000 sheep.
30,000,00 cows.

The next Argentine Loan launched in Europe, if we give the capitalists 6 per cent. interest and 1 per cent amortization will be subscribed, not 18 times, but 100 times, over the amount we ask for.

ABOLITION OF FORCED CURRENCY.

THE PRESIDENT'S MESSAGE

Finance Office.

B. Aires, May 23d 1881

To the Houble Congress.

The embarrassments through which the National Treasury has passed, and which were increased by the unfortunate political events of last year, have prevented the Government from fulfilling its obligations as laid down in Art. 10 of the Act of 25th September 1876, providing that it was to hand the twelfth part of the Customs receipts to the Provincial Bank, in payment of its debt to it.

I consider that this abnormal state of things must not be tolerated one moment longer. The Argentine Nation being now definitely constituted and consolidated, the Government's first duty is to reorganise the administration, which cannot be done without the strict fulfilment of all those obligations on which are based the good faith of the country.

The Act of 1876, passed under the pressure of a prolonged crisis all over the country, was accompanied by those precautions which the difficulties of the moment imposed on the most generous patriotism. The free action of the Nation was restricted, and 'forced currency' became a supreme law for the whole country. To recover freedom of action, without injury to the creditor who lent us such powerful aid in the moment of difficulty, has preoccupied me constantly, and I trust that the Bill which I have the honour to submit to your consideration will achieve both objects.

The Executive of the Province and the Bank Board have already approved of it, and the Provincial Government has to-day submitted the proposed bases to its Legislature, for approval, and, should you approve of it, I have no doubt the Legislature will do likewise; and thus, while we fulfill our obligations in justice and equity, we abolish the restrictions which the Act of 1876 imposed on one of the highest prerogatives of the Nation.

On the other hand, the new state of things created by this Bill will be less onerous for the National Treasury than the present, while contributing to strengthen the position of the great Bank of the Province of Buenos Ayres.

The Nation, under the Act of 1876, having guaranteed all the metallic notes, I deemed it right to embody in this Bill the obligation (which the Bank has accepted) that it shall withdraw or convert this emission in the shortest time possible, thus fulfilling what the National Government undertook to do. Its own interest will force the Bank to hasten this operation, as, only when it is completed, in accordance with the wish of the whole country, will the greater part of the Bonds with which all the debt is to be cancelled be handed to it.

Once this economic evolution is effected—with advantage to the province, convenience for the Nation and benefit for the whole country—you will then be able to give prior attention to bestowing on the nation effective monetary unity, which will open the way for the disappearance of the monetary chaos in which the whole Republic is now involved, while expressing duly the sovereignty of the nation as regards international exchange.

Successively, and at the proper moments, I shall have the honour to lay before you such Bills as, in my judgment, will lead to those results so necessary for our political and social progress.

I, therefore, beg of your honourable houses to sanction the Bill herewith, devoting to it the studious consideration it demands, and at the same time with the promptitude required to fulfill the universal desire to meet a great want, in the interests of the nation, of Commerce, and even of the daily wage of the humblest workman.

God guard you

JULIO A. ROCA.
Juan J Romero.

ABOLITION OF FORCED CURRENCY

The following is the Bill presented yesterday to Congress by the Nat. Finance Minister, for the Abolition of Forced Currency.

Art. 1—The National Executive to enter into arrangements with the Provincial Government of Buenos Aires on the following bases—

1st—The Executive shall emit 16,000,000 hard dollars in Bonds with 4 per cent interest and 1 per cent accumulative amortization by drawing, and at par, to be handed to the Provincial Bank of Buenos Aires, in payment of the debt due to it by the Nation.

2nd—The National Government shall attend to the interest and amortization of these Bonds, in gold.

3rd—The Provincial Bank shall withdraw from circulation all the emission that is guaranteed by the Nation, in the time and way most convenient to it, but the delivery of the Bonds shall be subject to the bases following.

4th—When this Bill becomes Law, seven millions of Bonds shall be handed to the Bank.

5th—On the day when the Bank begins to convert its notes at par, another four millions will be handed over, and after six months uninterrupted conversion, during which the holders of notes guaranteed by the Nation shall send them in, if convenient to them, the other five millions. The Bonds will carry coupons from the day of delivery.

6th—For three months, at the expiration of which this Law shall take effect, the National offices shall accept Provincial Banknotes as at present, viz, 50 per cent in notes for their face value, and during the three following months this 50 per cent shall be reduced to 25 per cent, and in six months after the agreement is come to, the notes will only be received for their market value.

7th—The Law of 25th September 1876 is hereby annulled.

Art. 2—The expenses in carrying out this Law shall be charged to itself.

Art. 3—This Law shall come into effect from the day on which the agreement referred to in Art. 1 is signed.

Art. 4—Let this be communicated

Juan J. Romero

ITALO RAILWAY.

Of all the Bills for Railways presented this year before the Legislature, the one by Messrs. J. Lloyd and Co., from San Nicolas to Junin, with extension to Italo, passing through the rich camps of Lincoln and the magnificent plains of Gainza, claims most attention.

It will open not only a new country to us, but almost a new province, and bring us within easy reach of the far-famed Venado Tuerto, the well-peopled district of Melincue, the rolling camps of Cernadas and the innumerable young estancias that, since the conquest of the Rio Negro territory by General Roca, have passed from the Indians. Messrs. Pinzen and Co., into the hands of merchants, lawyers, brokers, editors and dentists. It is hardly an exaggeration to say that in those immense plains that stretch out in the beautiful west, there is ample room for the whole stock of horned cattle that the whole province of Buenos Aires boasts of.

One great feature in favour of this new line is that it will compete with no existing railway nor with our rivers; on the contrary, it will tend to facilitate all. It will cross the Western Railway at Pergamino, and may be considered a feeder to that line, whilst it will bring to the banks of the river Paraua the teeming produce of the far west.

The proposed scheme is now being discussed by the Board of Directors of the Western Railway, and will be despatched by that Board favourably, as the Directors are fully aware of its importance to the country. We believe that a 7 per cent. guarantee will be asked for, not because the promoters have the slightest idea the railway will not pay, but simply to prove to the shareholders that the representatives of the Province have confidence in its covering the guarantee, and will do so the first year when open to traffic.

The line will be completed to Junin say in two years, but will be opened to the public in sections, which will be doubly convenient to the farmers and estancieros of the districts through which it passes, and an immense gain to the port of San Nicolas, whose trade it will so much foment.

Dr Rocha, our new Governor, could not possibly make a more brilliant debut before the investing public in the English market than by inaugurating his administration with a proposal such as the opening up of our far west camps, by means of this railway. Within the last year the lands of Gainza and Italo have come most prominently before the public, and these splendid virgin land are now owned by sheepfarmers of Giles and Mercedes: by merchants resident in Liverpool, woollen manufacturers in France and Germany, and bankers and capitalists in London. Some of the new proprietors are, whilst we write, driving out cattle to these former Indian rodeos, and, when it is known that this new railway is carried out, hundreds who bought these lands on speculation will, instead of holding them to resell, set about to stock and fence them as far as their means will allow.

Governor Rocha, in helping this enterprize, proves the great interest he takes in the material prosperity of his province, and no man in B. Ayres better understands the high import of this scheme than his talented Minister of Hacienda, Mr Uriburu, whose long connection with our market affords him the most invaluable experience for the post which he fills. The Gainza and Italo Railway will breed progress; create prosperity; people virgin camps of the most inexhaustible fertility, and spread happy homesteads over wild frontier plains which, due to the genius of Roca, are now called estancias, and with the aid and assistance of Rocha will, in a few years, be smiling sheepfarms.

RIO CUARTO.

'The plains of Rio Cuarto are the finest cattle-grazing lands of the whole Republic.' So says General Roca, and he knows as much of the pastoral capabilities of the Republic as any man in it.

The great landowners of Rio Cuarto, several of whom own from fifty to one hundred leagues each, do not probably know so much as the General does of the rest of the Republic, but they know the capabilities of their own land and the large profits their herds yield them. Every dollar they can lay their hands on they are investing in lands and cattle, chiefly, so far, in lands, for cattle are scarce and prices high; while lands, though rising rapidly in value, are yet cheap, and the investment is a paying one, even though they lie for a time unstocked.

To one accustomed to the fine pastures of Buenos Ayres, to the rolling 'cuchillas' of the Banda Oriental, these interminable tracts of waving grass do not appear attractive. This grass is strong and coarse; no amount of 'eating down' will refine it, but where it grows luxuriantly, finer grasses spring up under its favouring shelter—'gramilla' and 'cola de zorra.' The native has had a most pernicious habit of burning this luxuriant pasture every Autumn, in order that the tender shoots of the new growth may supply the want of finer grass, never thinking that he thus destroyed the seeds of the very grass he wanted; but he is learning better; this year the 'quemazones' have been few and far between: everywhere is seen a thick undergrowth of more tattening pasture, and the prospects for next year's 'faena' are very promising.

Not that estancieros did badly last season, though it was preceded by a year of drought; large troops of 'novillos' were sold for San Nicolas at $120, and last Winter the 'alfalfa' farmers, who bought up their 'novillos' and fattened them for the market, had almost a monopoly of the beef supply of Rosario and Cordoba.

Indians have been the bugbear which has, until the last few years, prevented any great extension of cattlefarming in this district; that fear is now removed, and constant purchases of cattle from the north, together with the natural increase of the native herds, are steadily increasing the area of 'occupied estancias', and filling those long deserted wastes with life.

The system of farming has hitherto been most primitive; the estanciero trusted entirely to streams and lakes for his water, and suffered his cattle to roam at will; boundaries were ill-defined or not defined at all, A common practice was for a man to pay a trifling rent for permission to put up a rancho somewhere, then he bought cattle and sheep and enjoyed the rights of pasturage at will. This is altering rapidly: The Topographical Department is hard at work defining estancias; landowners, becoming awake to the value of their lands, are discovering that the right of pasturage belongs to them; those who have no constant streams on their lands are taking to sinking wells; the advantages of fencing are coming to be appreciated; every spare wagon on the Andine Line that can be found at Mercedes brings down a load of posts from San Luis; gigantic projects are mooted for putting up some three or four hundred leagues of fencing by contract.

The coarse grass which is the prevailing feature of the pastures of Rio Cuarto produces heavy hides and good beef, but does not fatten rapidly; it has, however, one most useful faculty peculiarly its own: its long roots strike deep into the soil, drawing up moisture by capillary attraction: it is thus enabled to resist the most prolonged drought, of which last year gave a notable instance. Men galloped over the beds of 'lagunas' never before known to be dry, but only to emerge upon the same plain of waving grass as in normal years. Lands burnt black in the Autumn by 'quemazones' were covered with pasture in the Spring, although not one drop of rain fell from April to November.

In normal years rain falls every week in the summer time, filling up the 'lagunas' and bringing into existence ponds of water in every hollow; but it never rains in Winter. Then the ponds dry up and the 'lagunas' shrink within their bounds; then on the wild plains, where no stream flows, there is thirst; thirst which, if not quenched, means death. But below there is water in abundance, needing only the aid of the well-sinker and the 'noria' to meet the necessities of countless thousands of animals; water, flowing from innumerable springs whose source is the distant, snow-capped Sierra.

In Buenos Ayres estancieros put off the drawing of water in a dry season till the need is absolute, for the cold water brought up by the 'noria,' though it saves life, destroys the condition of the herds; it is not so in Rio Cuarto. The well-water in the dry Winter season is warmer than the surface water, and cattle fatten more rapidly when they drink from wells than when they drink from ice-cold streams or frozen 'lagunas.'

It was Mr. J. F. Gahan, of Lobos, who won the 20,000 patacons gold in the Caridad Lottery the other day, 'Felicitaciones.'

THE SANTA FE COLONIES

We can ask for no better proof of the steady and progressive march of this country than the yearly reports that come to us from the Province of Santa Fe of the colonies up there. Yesterday we received the report from the Inspeccion de Colonias de la Provincia de Santa Fe, dated April 6th, 1881. The figures in this report speak more eloquently than anything we can write. Progress and sound National prosperity are stamped on every page of this report, which, like President Roca's Message, speaks facts which none can controvert. The tables are so interesting that we readily make room for them in this column, and invite those who doubt the future of this country to study them closely.

Number of colonists.

Deputies Larguia and Zavalla presented to Congress on Wednesday a Bill for employing half a million pats in assisted passages to European emigrants wishing to come here. This is all very well, but what is wanted is one comprehensive measure embodying homesteads, assisted passages, advances, sale of land, &c., and this is not likely to come from private members. The House voted a sum of 2,500 pats to Mrs Melchora Pringles, on account of pay due to her brother, the late Colonel Pringles. Deputy Pizarro made a magnificent speech in urging this tardy act of justice on the House.

ZOEDONE

Ohne Phosphor kein Gedanke

ZOEDONE

THE NEW DRINK

A restoring & stimulating but non-alcoholic

BEVERAGE

Letter from Dr Lucas, Bombay, Medical Dept. Author of the Elements of Indian Hygiene etc.

"I am of opinion that your invaluable aerated beverage Zoedone deserves the highest attention at the hands of the Indian public. It is not only a health giving drink but essentially, containing as it does the quadruple phosphates of Iron, Lime, Potash, and Soda, a health restoring drink par excellence, reviving and refreshing the vital powers. It would be a blessing indeed if we could see it introduced into hotels, restaurants, regimental messes and canteens. To weakly females in India it would decidedly tend not only to the amelioration of their own health, but that of their offspring, the future generations of men and women. I need scarcely allude to its indication as a remedial and dietetic agent in cases of malarial cachexy, phithis etc."

Letter from Geo. S. A. Ranking, M.A. M.D., Cantabe Surgeon, Indian Medical Department.

"I am of opinion that in Zoedone is to be found a complete solution of the problem which has long exercised the minds of the Medical profession in India, viz., the discovery of a beverage which shall assuage thirst, restore nervous waste, and while being palatable, be also non-alcoholic. It is my firm conviction that if Zoedone be introduced into India it will meet the requirements of those who wish to restore their nervous system without impairing their liver."

VALVOLINE

Lubricating Oil

Engineers and other scientific men who have thoroughly tested this Mineral Lubricator, are unanimous in pronouncing it 'superior to all others.' Five parts are equal to eight of the best Sperm Oil (considered until now the best Lubricant) which, taken in connection with the fact that it never gums or oxidises makes it the cheapest lubricant in the market. It took the only prize at the Centennial Exhibition and is the only Cylinder Oil used in the British Navy. There can be no better proofs of its excellence than these.

The Cosmos, Rio Parana etc, use no other oil, and it is the only lubricant used in the Argentine Navy.

A new lot has just been received, and arrangements have been made with the manufacturers to keep up a continual supply, thus avoiding the possibility of again running short.

VALVOLINE for consumption in the River Plate, can only be obtained from the undersigned, because the manufacturers will not sell to merchants or Commision Agents, thus completely protecting consumers from being imposed on with falsification. These are already being attempted.

Paris, 2nd.

Committee of Senate reported adversely yesterday on the 'scrutin de liste.' Bill passed by the Deputies.

Paris, 3rd.

Professor Littre, member of the French Academy, died here last night.

REVIEW FOR EUROPE

It is difficult to imagine any more welcome news for the River Plate than that which we received yesterday from Chile, and which we publish in another column. The basis of the arrangement proposed by Chile affords an easy way for both countries to escape from a difficulty in which they were involved, less for the value of the territory in dispute than national dignity which was compromised. Composed as our National Government is at present and as our Congress is, there can be little doubt that the willingness expressed by the Chilians to finally settle this question will be reciprocated by our rulers. The long discordant elements of war and trouble are no longer in the ascendant in our Legislature, and the new public men at the front of of our affairs will gain increased popularity by finally adjusting this question, which is even more chronic than 'curzo forzoso.'

Since the sailing of the last packet the National Government has taken the most determined steps to bring the country back to specie payments; and President Roca, in his efforts, has met with the fullest co-operation from the Governor of Buenos Ayres, Dr Roach, and from the Directory of the Provincial Bank. The project of Dr Romero, the Minister of Hacienda, to pay off the debt of the Government to the Bank, and thus enable it to resume specie payments, is now before Congress, and will, in all probability, become law this month: a similar project, by the Minister of Hacienda for the Province, is before the Provincial Chambers and will also be passed; thus the Provincial Bank will receive from these Governments public funds to the amount of 28,000,000 pats, which we have no doubt the Provincial Bank will be able to pledge in Europe for a specie advance of say, 14,000,000 pats, which, with 6,000,000 of pats. which it already holds in gold will give it a specie capital in its vaults of say £4,000,000 stg, the half of which would be amply sufficiet to enable the Bank to convert its notes at the par value, or 25 paper dollars per patacon. Our foreign readers may therefore accept the fact that at the close of this winter season, or at most, at the close of this year, forced currency will be abolished in this country; and the splendid development of its industrial resources, the growth of our colonies, our cattle estancias and sheepfarms, the improved political situation of the country since Buenos Ayres has been made its capital, and the vast amount of foreign money seeking investment in our stocks, our shares, and our public lands, may be well accepted by the people in Europe as the very best guarantee that the country is well able to pay in specie, and its market to thrive and flourish without the pernicious aid of 'curso forzoso.'

The subscription in Paris to the new Argentine Loan has been a brilliant success, which few here anticipated; the truth be told, both Argentine and foreigners here underestimate the credit and resources of this great country, but the fact that the loan was subscribed for 18 times over has produced the most beneficial effect on this market, causing gold to drop about 6 per cent, and all our stocks are marching up to par.

The season has proved exceptionally mild, and the increase on the sheepfarms is estimated at from 25 to 30 per cent; many of our oldest farmers say that never before had they so favourable a lambing season, and, from all we can gather, it would seem that at the end of this year, if the season continue favourable, our sheep will be over ninety millions; on the other hand, our cattle estancias are, since the new Rio Negro territory has been opened to the public, taking an expansion never before heard of, and which in the turn of a few years must enormously increase the resources of the country.

The saladero 'faena,' which was so backward, and which threatened a deficit of over 400,000 head, is now pulling up, and the probabilities are that the deficit in the killing will be only 200,000. We have still an enormous stock of wool in this market, which is much to be regretted, as the fall in gold very materially affects the price. We shall have wool to ship all the winter, and it will be hard enough to get it all away before the new clip comes in.

The Provincial Government has just concluded its new Loan for £300,000 for the conclusion of the Biachuelo Works. The loan has been taken by a London firm at 86, firm, free of commission. The gold to be brought out here. The dredges are at work, night and day, and the National Government is about to lay before Congress the project of the docks at the Boca.

Mr. Gabrielli, the great hydraulic engineer and contractor, has arrived from Rio, and it is to be hoped that the National Government will invite him to make bids for the conclusion of our City Improvements and Water Works, his name being a guarantee that under Mr. Bateman's superintendence these important works will be properly concluded.

The news from Montevideo is far from satisfactory, and everything down there points to a new departure. The Government has prohibited the entry of Buenos Ayrean newspapers, and has resorted to other subversive measures to maintain its authority. Telegrams have been received from most reliable sources announcin the return of Colonel Latorre, who is expected back in about ten days in Montevideo, at the call of all parties, and will, doubtless, restore order.

Dr. Romero, our National Minister of Hacienda, will, it is thought, draw immediately on Europe for the amount of the new Loan, which will naturally greatly affect our Exchange market. The rates are at present very firm and very rising, at 49¼, but if the Government exchange for any very large amount is offered, we may safely conclude that the rate will soon be 50d.

Exchange closes for the mail at the following rates:—

On London, 49¼.
" Paris, 5.23.
" Antwerp, 5.24.

DR. MANUEL D. PIZARRO.

A pamphlet, signed with the 'nom-de-plume' 'Argentino,' has been recently published on the much esteemed National Minister of Instruction, Dr Pizarro, who is at present studying the necessary reforms in the deficient educational system of the Republic. The author has penned a detailed biography and an eloquent encomium of the present Minister, whose fiery eloquence and influence were felt during the exciting debates of the Belgrano Congress during the month of July last year.

Dr Pizarro was born in the city of Cordoba on the 10th April 1841; his father Don Estevan Pizarro was a Colonel in the army and his mother, Mrs Mercedes Leaniz de Pizarro belonged to one of the most esteemed families of that capital. His grand-father Colonel Manuel Pizarro crossed the Andes with Gen San Martin. He studied in the University of Cordoba, where he ranked amongst the most intelligent and mildest students.

In 1865 he completed his studies; in 1867 he practised as lawyer in the Province of Santa Fe, and in 1869 in Buenos Aires. Years before, he had started, whilst studying in the University the *Eco libre de la Juventud*: the name was subsequently changed to that of the *Eco libre de Cordoba*, and finally the paper passed to other hands and exists to-day, known as the *Eco de Cordoba*. In 1861 having mixed in politics, he had to leave Cordoba in company of many of his friends, who opposed the local Government; but after the battle of Pavon they returned. He then edited the *Discussion* during 2 years, but he finally left his native province and settled on the Litoral.

In Santa Fe he was entrusted with the reform of the Constitution and he sought to embody in same the more advanced institutions of the day, taking for example the institutions of Great Britain and of the United States.

He was subsequently made Minister of Government of Santa Fe, and thanks to his efforts, the educational system of that province was entirely reformed and put on such a footing as to equal that of B. Aires.

In the revolution of 1874 he defended the Government, and although he was President of the Superior Tribunal of Santa Fe, he resigned the toga to seize the sword and was named Lieutenant Colonel of the National Guards of Cordoba.

In 1878 Dr Pizarro was elected Deputy to Congress for Santa Fe, and he is well known for his speech opposing the unanimous motion to grant a pension to the late Dr Alsina's natural son. He so much impressed the assembly that the motion was reconsidered and the Senate finally threw out the bill. In this debate Dr Pizarro displayed his great knowledge of Law.

Finally in 1880 he, above all, influenced the debates in Congress on the Capital question, and displayed all his powers in defence of same. Not long ago he was attacked by a leading paper, edited by an illustrious Argentine. He silenced the insulting slander, and the editor had to abandon the field. This is a glance at Dr Pizarro's short and luminous career, evidencing the statesman all along. With such antecedents, the Republic has a right to expect much from Dr Pizarro, who is now entrusted with the country's future—its education. We have already had occasion to approve of his views, and hope that the hints thrown out in his late report will soon be facts for the benefit of all.

EDITOR'S TABLE

The R.M.S. Trent will sail tomorrow. Our Packet Edition is included in thie issue.

President Pinto's Message on opening the Chilian Congress shows that the balance of exports over imports last year was 16 millions of patacons, although the Agricultural returns fell off 10 p. cent. There is a deficit, nevertheless, of 16 millions of pats, which was covered by an emission of Treasury Bills. The paper money issued to 15th March last was 25 millions of hard dollars.

The proposed bases for an arrangement of the Boundary Question with Chile are: Andes to be dividing line, with money compensation for whatever territory such a line may take from either country. Argentine limit in the Atlantic to be Cape Virgin, which shall be neutral ground; Southern limit 52° S L. 72 WL, from Greenwich; Chile to keep coast line of the Straits, and territories on the other side to be defined by the Andes line. Nothing could be fairer, and the sooner the whole thing is put on a sheet of note paper, signed, sealed and delivered, the better for both countries.

The telegrams say that the news of the great success of the Argentine Loan in Paris caused a most grateful sensation in Montevideo. Our Oriental friends would be more than human if a slight spice of envy did not mingle with their good wishes. If they would only give over 'fighting like devils for conciliation,' we might soon be able to rejoice over their launching a loan with similar success.

Another lump of fat is likely to be thrown into the political fire at

NUEL D. PIZARRO.

The proposed Lacrosse Tramway line to Tandil is to start from the Almagro station and run through Matahzas, Ranch, Monte, Las Flores, &c. A fine route that ought to pay.

An old subscriber begs us to tell the Municipality that they ought at once to issue an order that all the doors of the city theatres must be made to open outwards, and also that the stairs leading from the galleries and 'cazuela' should be made of stone. The suggestion should be attended to, or we may have a Nice tragedy here some night.

People who go to the pit and orchestra stalls of the Colon Theatre complain bitterly of the way the seats have been crowded together, to accommodate more people. A queer way of 'accommodating them. Several of our best paying subscribers are in bed with corns crushed to mummy by people trying to get past them to their seats, and the destruction to ladies' dresses is awful, to say nothing of what they have to go through to get to their places, especially it these are in the middle of a row.

Four hundred Correntino sailors have volunteered for the navy. Our fresh-water friends wont relish their first cruise even to the Straits, much less to Cape Horn. Now that the Chilian Question will probably be settled, most of our war ships may be laid up in ordinary, it a place can be found where to keep them.

At the Monserrat College in Cordoba they are now digging away for bare life in search of 70,000 ounces which a man named Perez declares to be buried in the grounds. Oh! Perez, Perez! this is too cruel a joke to go down, with the premium on gold so low.

A Rosario lady gave birth to four children some days ago, but they all died.

In a tavern brawl on Thursday night in Calle Independencia, one of the combatants drove a knife over three inches into the head of the other, just over the right ear. It took the nearest policeman twenty five minutes hard work to pull the knife out of that man's head. Such a head!

There is terrible news from the South, where, at a place called Amambay, four gauchos sacked a store, stole $127,000 m|c., smashed everything in the place, and finally cut the throats of the owner, his wife and their little girl child. There is great excitement in Azul about this awful affair.

Amongst the rumours going yesterday was one to the effect that Colonel Latorre had invaded Banda Oriental and was at Cerro Largo, but the Government forbade the papers to allude to the news, all of which may be true next week, although we doubt its being so at present.

It is said that Salvini, when playing Othello lately in New York, became so totally absorbed in his part that he gave Cassio a severe sword cut. Old Edmund Kean did the same one night when playing Richard the Third, and Richmond, terrified at the great actor's aspect, ran like a hare from Bosworth-field, in total defiance of historical and dramatic accuracy.

Another city improvement in contemplation is to throw Plazas Mayo and Victoria into one, for which purpose Congress will be asked for the money to buy the Recoba Vieja. $f.100,000 will do it

There will be a great treat at the German Society Germania, when 'Tannhauser,' a comic opera, will be given. This opera is in the style of Wagner's grand opera of the same name, but with different music, and is composed of the most favourite German national songs. It has been given all over Germany, where its representation created a great 'furore.' The 'mise-en scene' is by Mr. Rupp, the able director of the Germania Choral Society, who also composed several songs to improve the 'ensemble' of the piece. The 'roles' are played by the most talented singers and artists of the society, who will be assisted by a suitable chorus. The female 'roles' will be played by young men. This being one of the first representations of the kind, there may be doubts as to its success, but we hear favourable accounts from the rehearsals, and a fair success may be expected. After the performance there will be a ball with grand orchestral music. For full particulars see advertizement in another column.

The Rev. M. P. Ferguson will preach on Sunday next, the 5th inst., at the Estancia Negreti (Mr. Shennan's), and on Sunday, the 19th inst., at the Estancia Barrancas (Mr. Church's.)

Lord Beaconsfield has left the best part of his fortune to his nephew, Coningsby Disraeli, a boy of 14, now being educated at the Charter House. His manuscripts are to be published, the only condition imposed being that Her Majesty's consent must first be obtained in reference to written communications between her and the deceased statesman.

Some of the greatest rascals in the Penitentiary had the coolness to petition the National Government to let them out, in honour of the recent May fetes. They did not even go through the formality of saying that they would be good boys for the future, and as Governor O'Gorman reported that they had been preciously bad boys in the past, and were not a jot better in the present, the Government very wisely decided to leave them where they are.

The Government intends asking Congress for 100,000 pats. to build new barracks for the troops of the garrison. The present quarters of the troops are certainly not up to the mark.

Talk of our arrivals of European emigrants here. Just read the following figures of the arrivals already and those expected this year at New York. It really takes the breath away. 'There is something rotten' in every State in Europe, and America is getting the benefit of it—

"This year's immigration promises to be the greatest ever known. The arrivals at New York for the first three months number 46,618, against 34,675 for the same period in 1880. A total of 500,000 is expected in the course of the year. The money brought by immigrants is estimated to average sixty dollars a head. If this is correct, the 500,000 will bring $30,000,000 into the country, not to speak of the value of their labor."

In spite of the dull export season owing to the snag up in wool, the Buenos Aires Custom House gave most magnificent returns in May—$f.1,395,654; not a dollar less. With this sort of thing, the loan subscribed for in Paris 18 times over, and a probable balance of trade in the country's favour this year of 15 millions, it is no wonder to see the countenances of gold bulls and the forced currency men 'sicklied o'er with the pale cast of thought' and that their 'enterprises of great pith and moment' are all going to the dogs, while the country and all who have faith in it are soaring to the skies.

Messrs. Smith and Co. have proposed to Government to build a Swiss Chalet on Paseo Julio, where there will be all kinds of games for children and boats for rowing partis and aquatic pic-nics in summer. In return for a ten years' concession, they offer to carry the Paseo fifty metres further to the north.

The new cafe and billiard-room building in Calle Piedad will be the biggest thing of the kind we have, and handsomest too. Billiards seem to be developing as fast as anything in the country; but it is a kind of progress that wont make as many fortunes as sheep or cattle-farming, except for the proprietors of the saloons. We were credibly informed yesterday that nothing pays like a billiard-table, or a few dozen of them, always excepting a drug store, which is a 'bonanza.'

WEATHER TELEGRAM

ON 'CHANGE.

June 3rd

Patacons	27.45
Cedulas A	98
National Bank Shares..	96½
Bonos Provinciales	4 premium.

There was a pause in the full of gold today caused not by any want of confidence in the steady decline of the market, but rather a want of confidence in the ability of the buyers to pay the high prices for the gold at 'vencimiento'. Thus many who consider gold in the present position of the market dear at 26 were obliged to buy back to-day from the parties to whom they have sold, in order to sustain the market, but even with this great help the gold bulls are nowhere, and gold held throughout the day between 27.35 and 27.40, the bulk of the operations being for the end of the month. It was generally said that to-morrow there will be a heavy delivery of gold, much of which survived the month's liquidation, and was taken up at 28.30.

The Titchborne case was not more debated in the coffee-rooms throughout the United Kingdom than the new loan at all the restaurants about the Bolsa. Superficial observers say how monstrously the Government negotiated the loan here at 82, when it is worth 92 in Paris. But the loan has in every sense proved a most brilliant business for the country, creating new relations for the Plate in circles where before this Republic was unknown. It is not the mere figure of 88 or 92 we are to look at in this business which has an infinitely higher import for this country, and the French capitalists, who clear a handsome commission by dealing with the Plate, will be ready to enter into new relations of perhaps still larger import. The loan has been the cleanest and best business ever done in this country, and will do us all incalculable good abroad.

Gold opened and closed cash at 27.45, only 73,800 sold. For to-morrow 190,000 sold at a little under cash rates. For 30th 662,000 sold at 27.35 to 40. For July 31st 545,000 sold, opening at 27.20, selling down to 27 10, and closing at 27.15; and for Sept. 26.90, and Dec. 26.60.

Cedulas rule very active, but for the strong demand for the stock for investment prices would certainly drop, owing to the very large business the bank is now doing, but money is abundant and is to be had at 2 per cent less interest than the Cedulas give, thus the market absorbs everything, and about 100,000 were thrown on the market, to-day yet prices held their own and the rates shew an advance on yesterday.

Nat. Bank shares are knocked about by the very men who hold the stock, and who hold orders to buy more; prices for cash firm at 95, and for end of month 95½.

Nat. Bonds are much looked for, particularly small amounts, but the stock is scarce and dear, as holders look forward to par gold, at present rates they seem to be very good buying for those who have the money.

Bonos Provinciales very firm, and looking upward; Minister Uriburu calls for bids to amortize 1,757,156, for quarter ending 1st inst. to be sent in before 7th inst. We believe the Prov. Bank will be the amortizer, as at the last quarter.

Merchants will find many items in Mr Parish's speech in London at the meeting of the Southern Railway shareholders of much interest. No man in England understands the River Plate better than Frank Parish, and the country has always a good friend in him on that great battle field of railway interests the Cannon Street Hotel.

Exchange—The brokers all report extremely quiet and rates at 49d on London, 5:20 on Paris; still we believe at these rates no large amount could be passed, and takers are watching the un-fined tilbury of the Government broker in and about Maypu street. The present rates are most favorable for our National Minister of Hacienda to draw on account of the loan, and it is said on 'Change that the Minister will draw to-morrow for the Trent.

The sales at the ring were—
For cash 73,800 27.45
For June 4th 190,000 27.45-40-45
For June 15th 115,000 27.40-45
For June 30th 662,000 27.35-40-35
For July 31st 545,000 27.20-10-15
For Sept. 30th 26,000 26.95-90
For Dec. 31st 65,000 26.60-70
Sales, 1,670,800.
Cedulas—
For cash A 60,600 98-97½-98
For June 30th A 35,000 98-97½-½-98
Sales, 95,600
Nat. Bank Shares—
For cash 275 shares at 95
For June 8th 200 shares 95
For June 30th 450 shares at 95½
Sales, 928.
Prov. Treasury Notes—
For cash 138,000 at 4 premium.
For June 30th 400,000 at 4 premium.
Sales, 538,000.

We have to call the attention of our readers to the auction which is to take place to-day at 4 o'clock at the rooms of M sers Bullrich, 78 Alsina, of 43 squares of land in the partido of Exaltacion de la Cruz. Basis 30,000 m/c.

There was an unusually heavy business done at afterhours in gold, and the market which was so artificially bolstered up during business hours, gave way again at 3 o'clock. To report all the sales effected would require another black board; suffice it to say that the last reported business for the end of the month was 27.15 cash, and 26.85 for end July.

At last we have to report an improvement in the news from Europe about hides, wool and tallow; bottom seems to have been finally touched, and from the U. States we hear there has been a sudden jump in salted hides.

Who holds the news from London? Telegrams have been received stating that when the result of the Argentine Loan in Paris was known in London there was a tremendous movement upwards in all Argentine stocks, but the prices are held up. Par was offered to-day for Nat. Bonds, and refused; holders ask par sin coupon.

It was also rumoured that telegrams from London, to-day's date, had been received, announcing a still further improvement due to the Pagare Comision telegram sent yesterday giving the great drop in gold. Everything Argentine in Europe looks brightening, and we now begin to feel the reflection here what a little people we are in a great country?

Captain Dickenson, Commander of R.M.S. Mondego, was enveloped in friends when he entered the hall, and much felicitated on social affairs that for ever must be stranger to this column. We have to thank the Captain for our London files. When we last saw him it was at the Princes' ball at the Opera theatre. He finds everything much improved.

We commend to our mercantile readers the *National*. Our colleague merits a gold medal for its industry in supplying the market with the best and latest news. When an editor leaves his sanctum for the Custom House to hunt up business items and tables, it shows that business at last thrums on politics in the market. We hold for our next some useful data which our talented colleague gives.

The Provincial Bank did a heavy discount business in paper to-day, some 8 millions; nothing in gold as yet. It seems the Bank must await the passage of the Romero project before it discounts in gold. Mr. Charles Casares, the popular President of the Provincial Bank, is winning daily fresh laurels for the ability of his administration. The whole market compliments Don Carlos on his very able management in times so extremely difficult for the Bank—but the bank goes with the market current and holds its high position in the market, notwithstanding its great changes.

All the wool men on Change were in better humour to-day, owing to the improved advices from Europe, which will lessen the effect of the natural fall in gold.

A very important saladero business is reported from the Mooore's saladero, 7500 to 10,000 oxhides, 65 lbs, and 7500 to 10,000 cow hides, 50 lbs, at 45 rls.

Mr H L Green reports the following charters—

Austrian brig Argus, to load in port salted hides for Antwerp direct at 27s 6d.

British lugger Kildona to load railway materials in port for Rosario at 2 pats, and to load up there hay for Rio, at 2½ pats per bale.

Nothing more forcibly points to the changed affairs in the country, than that the Government Railway agent from Tucuman is looking everywhere for 4000 shovels and can't get them, and Mr Green charters a foreign barque in port, to take up railway materials to Rosario; no wonder gold falls.

In exchange nothing to report, bills offered yesterday at 49½. They said on Change, the Minister draws to-morrow, but then they say so many things on Change.

The following are the killings up to May 31st, 1881—

Flour, 8,000 ar., rivers at 36

The rain to-day was much required for the camp, as the estancieros and farmers say that the more it rains now the better if the weather keeps mild, but heavy frosts after the rain are greatly calculated to injure the camps. The frost the other morning was tremendous throughout the camp, and it is evident to all that as cattle and sheep become of value the farmers will have to grow trees and hedges on their lands to afford some protection to the cattle in very severe weather. Our readers will remember that one estanciero in the South saved his cattle in the great September snow storm by driving the whole rodeo into the monte; others would have done the same, but they had no monte on their land.

Mr Bonckler, the popular Belgian barraquero, was welcomed on 'Change; all his friends were delighted to see him quite recovered from his severe accident at the Venado Tuerto some months ago.

With pleasure we announce that Mr Edward Casey's visit to Europe is likely to prove highly beneficial to sheepfarmers on 'pasto fuerte' land, as Mr Casey intends to bring out a new class of rams especially adapted to 'pasto fuerte' camps, which is just what is required at the moment, owing to the large number of people now driving flocks out to the new camps upon which only the long woolled sheep thrive. Soon we shall have the breed we require for those camps, which will be a great desideratum.

The magnificent stock, sent by Mr Nash per Maskelyne, at Baltar & Quesada's attracts much attention, say—

10 Shropshire Down Rams
5 Durham Bulls
5 Durham Cows
2 thoroughbred Stallions.

The stallion Milkman of same blood as Mr Kemmis's Blair Adam is pronounced one of the finest ever imported here and has a splendid pedigree, they are to be sold on 8th instant.

Messrs Torrome Son & Co., of London, under date May 6th, give the following as the latest quotations:—

Messrs Heyworth Hart & Co.'s monthly circular, under date Liverpool, May 6th, 1881:

The arrivals during the past month have been—
Pliny from R. Plate
Maskelyne do
Gassendi do
Araucania from the West Coast and Montevideo
Galicia do do
All with hides, skins, &c.; also—
Il Romito de Caprera from Mercedes
Mary from Rio Grande
with bones and bone-ash.

Salted Hides—

The month opened with a fair enquiry, and there appeared prospects of a good business being done at prices then current, but the leather trade continuing dull, these anticipations were not realised, and in the end holders gave way, the sales reported being at ¼d to ¾d decline. The market closes quiet, and the prospects of short supply have no effect in inducing English tanners to operate for hides either on spot or to arrive, in presence of the discouraging circumstances confronting them at present. About nothing has been done in Uruguays, although some cargoes are mentioned, but without quite definite particulars. In Rio Grande hides two cargoes are supposed to have been taken for the Continent at high prices, but latterly the demand from that quarter has subsided, and English tanners are not buyers at present quotations. Several cargoes of March and April sailing are offering.

The slaughters in the R. Plate continue to progress slowly, and the deficit, instead of being diminished, has somewhat increased, the total killings up to the 30th April being 827,000, against 1,153,000 at the corresponding period last year.

The latest advices from London per Mondego give Argentine Sixes over PAR, White kid gloves to President Roca and Minister Romero. We extract the following:—

"The 40th report of the Directors of the Pacific Steam Navigation Company for 1880 states that the profit on the working account was £309,600. The underwriting account, after transferring £15,000 to the credit of profit and loss, shows a credit balance of £102,034. This account, however, will have to be debited with the loss incurred by the stranding of the Sorata; but it is stated that the average has not yet been adjusted, and the repairs will not be completed until the beginning of next month. The profit and loss account, after debiting the sum of £199,188 for depreciation, shows a credit balance of £10,663, which is further increased to £130,439 by the addition of the sum transferred from the underwriting account and the balance brought forward. The Directors have declared a dividend of 22 per share, and £13,269 remains to be carried forward.

"In the annual report of the Buenos Aires (New) Gas Company [Limited] for the year ending Dec. 31st, 1880, the amount at the credit of profit and loss is stated at £23,540, making, with the sum brought forward, a total of £32,772. After paying £7,800 for debenture interest and a dividend of 5 per cent on the shares, which absorbs £13,500, there is left £11,472 to be carried forward.

"The dividend of 10s was deducted yesterday from the price of East Argentine Railway Shares, which thereupon improved, closing at 18½ to 19½ ex div.

"A dividend of 8s was also deducted from the price of Central Uruguay of Montevideo Railway Shares, which left off at 7½ to 8 ex dividend.'

The latest news about wool in the U. States are as follows:—

"The annexed table shows the number of bales of wool imported into New York during the past week, and since the 1st January, as compared with the preceding year; also, the receipts of domestic during the same period—

Foreign—	Bales.
Imports week ending April 8th	94
Imports since Jan. 1st, 1881 ..	15,112
Imports same period 1880.....	47,518
Domestic—	Bales.
Receipts week ending April 9th	63
Receipts since Jan. 1st, 1881 ..	12,906
Receipts same period 1880.....	7,626

"The Boston Wool Market—There has been a continuation of the recent quietness in domestic wools, but the steadier tone noticed last week has prevailed without much if any further change. Manufacturers still take hold in a moderate way, and the condition of the goods market gives no encouragement to large operations in a speculative way or much in advance of near by wants. Meanwhile, the market seems to have reached about the lowest point, and in this there is a general agreement. The sales of domestic wool are about 600,000 lbs. less than in our previous report, but this is largely ascribed to the broken week and to one day out on account of the holiday. Washed fleeces has moved more quietly, with X Ohio ranging at 40 41c; XX Ohio, 41-42½c; No. I, 38-45c; X Michigan, 39½-40c. Pulled and Californian wools have moved moderately. In Texas and Territorial, unwashed and unmerchantable and combing and delaine there has been considerably less than usual doing. Advices from San Francisco are that about 4,000 bags of the new clip have come in, but that buyers and sellers are apart, with scarcely anything doing. Holders there are asking about 20c for good Southern wool, but the tendency is to softness, owing to the condition of the Eastern market. The price mentioned, according to the trial of samples, is equal to about 65c, clean scoured, laid down here by rail. The sales of the week are 1,326,100 lbs. domestic and 754,500 lbs. foreign, against 270,900 lbs. domestic and 610,300 lbs. foreign a year ago. The receipts comprise 4,116 bales domestic and 654 bales foreign."

B. AIRES G. S. RAILWAY COMP., LIMITED.

MR. PARISH'S SPEECH.

The yearly ordinary general meeting of this company was held on Thursday 21st April at the Cannon-street Hotel, Mr Frank Parish, the Chairman, presiding.

The Chairman said that, in presenting the report of the directors this year, he thought he might assume that it had afforded the shareholders great satisfaction, the more so as it was accompanied by a very substantial dividend. (Hear, hear.) That should render his task as chairman light; and, therefore, he would confine himself to a few general remarks. They had the history and details given with all the precision usual to the general manager, in whose report they would see satisfactory proof of the genuine character of the traffic. The year under review had been a remarkable and exceptional year. The company had not been favoured either by nature or politics, which were the two elements they always had to deal with in that country. As to the seasons, during the early part of 1880 the company carried but a small portion of the previous year's wool clip, and during the latter portion of the year, owing to drooping markets, they carried but a small proportion of the season 1880-1. As regarded the figures in the report, the gross receipts last year were £439,000 against £405,000 in the year before. The extra traffic was worked at about the same expenditure, leaving a net profit of £114,000. On the other hand, they would find that a considerable portion of the traffic, certainly that of the extra traffic, was derived from the carriage of Ayacucho materials, which, if deducted, would leave about the same results from commercial resources as the previous year, which was anything but an unsatisfactory one. Making allowance for the five weeks' suspension of the railway, and taking a fair and average amount of earnings for that time, they would arrive at this result—that without the revolution and suspension of traffic they would have shown a very fair increase indeed, and as large as they could expect under the special circumstances of the country without any aid from Ayacucho materials. (Cheers.) It would be needless to enlarge upon the traffic. The goods traffic had been influenced by the disturbed state of the country in such a way that no comparison between it and the traffic of previous years would be of any use. Owing to the reduced value of gold, the company had been enabled last year to reduce the fares 12 per cent. (Hear, hear.) One of the most satisfactory facts they had to report had been the formation of the reserve fund. The shareholders were informed at the last meeting in October that they had practically accumulated the sum of £100,000, or rather they had it at that date at their disposal.

The company had received from the Government the amount from the Dolores subvention, which had been pending for some time, or rather he should say that payment had been decreed in bonds, and those bonds were in course of delivery. (Cheers.) The amount of that was £28,000, and would form part of the reserve fund. The war claims were now going through the ordeal of examination, and he hoped the directors would obtain a satisfactory settlement of them. He had every reason to believe that the Government recognised the liability, and doubted not they would deal with the company, as they had done before, in a fair and liberal spirit. (Hear, hear.) With respect to the general position of the company there, the directors were desirous of making it a popular company. It was growing into very large proportions and had become an institution of the country, and they must consider that its interests were identical with those of the country, (Hear, hear.) From time to time the directors heard some little remark as to the lack of popularity of the railway; but he believed the truth was they were very much in the same position as railway companies were in this country—there was always a growing demand on the part of the public for increased convenience and accommodation of all kinds. The railway commanded a greater monopoly than railways here with regard to the conveyance of passengers and goods, and, therefore, it was natural that, from time to time, the directors should hear little complaints as to short-comings. But the company had been actuated by a liberal policy, and the directors were always desirous of meeting the public wants to the best of their means, and had had ample opportunities at their disposal to do so, and he believed it had been the right policy. (Hear, hear.) They had shown fair results. They had freedom from accident as regarded the train service, which in some railways was a serious source of interruption and expense. With regard to the punctuality of the trains he could speak favourably; and as regarded the general business and the accommodation for passengers and goods, the railway was as well equipped as any railway in the world. (Cheers.) It was a matter of surprise and congratulation to see how well the line had been equipped, but perhaps that was not to be wondered at, considering the correspondence which had gone on between the manager and the secretary—a practical man acquainted with these things. Therefore the general public had no reason to complain. As to the general manager, no man could have displayed more zeal, honesty, and integrity than Mr Cooper, the manager. (Hear, hear.) The country was advancing with greater rapidity than ever before. Since the acquisition of the new territory in the south and far west, which was formerly overrun by Indians, there had been a great movement, and great attention was paid to these lands. They were passing from the original allottees to new purchasers, and every mail brought accounts of large sales, and no doubt this would create a desire later on for a further extension of the railway. The company must be guided by prudence in carrying on any further extensions. They knew very well they would not be able to stop where they were; they must consider now that they were part and parcel of the country, and must progress in proportion as the population progressed. (Hear, hear.) The company had done hitherto almost more than the country could have expected; but they must look upon each terminus of the railway as a mere stepping-stone to further advances. It was only a question of time when it would be proper to carry on the railway, but they must fairly see the results of the last extensions before they ventured any further. (Hear, hear.) He could hardly say what encouragement the Government and people would offer the company if it went further, but they could leave that alone for the present. They were desirous, as a board, to follow no niggardly policy. They wanted to serve the country's interests. They did not want the people to feel that this is a foreign company sucking their blood. (Cheers). He had hoped to put before the shareholders a superannuation fund scheme, but, although it had been formulated by the actuary and was ready, it required to be forwarded to Buenos Ayres for the remarks of the manager. At the next meeting he hoped it would be ready to submit to the shareholders, and then they would be asked to sanction a reasonable vote to form a nucleus of that fund. (Hear, hear.) With respect to the Ayacucho shares, after the proceedings of the ordinary meeting were over they would resolve themselves into a special meeting, in order to convert these shares into stock, and he hoped they would be satisfied with the results. (Cheers). The directors had hoped to have met the shareholders in the new offices of the company, but that had been a little delayed, also, but he hoped in a few weeks the company would be established there, and that in future years they would meet more 'en famille,' without being obliged to come to an hotel. (Hear, hear). In conclusion the chairman moved the adoption of the report and accounts.

COMMERCIAL NEWS

May 24th

The gold market opened weak and excited; the cash sales were large, and most of the transactions were at 28 55; the last sale on the board, however, was at 28.40, which gives the day's quotation. The sales on time were very heavy, and all point to a declining market.

It is really amusing to hear the various opinions offered on Dr Romero's project. Some believe that as there is no obligation on the part of the Bank to withdraw its specie notes, it is calculated rather to put up gold than anything else, whilst others see in the absence of any conditions put upon the Bank the real ability of the project. Gold for the end of the month may be whatever the brokers put it, but the price for June and succeeding months is utterly beyond the power of the brokers, and many who study the market closely think that gold at the end of June will be dear at 27 m/c.

Gold began cash at 28.45, sold down to 28.35, and closed weak at 28.40, the amount sold cash 136,190 pats, which shows a brisk business enough for cash. The sales on time were tremendous; the whole market seems to be selling out. For end of month close on 800,000 pats. sold, opening at 28.45, dropping to 28.35 and closing at 28.40. For June, 560,000 pats., opening at 28.15, dropping to 28.05 and closing at 28.10. For July, 115,000 pats., at 27.96. 'En fin', along the whole line there is a downward move.

Cedulas very little done; prices at 97.

National Bank Shares heavy, but maintained prices cash at 93⅜, and for end of the month at 93½. For June market firmer than for cash at 94⅛.

Emprestito Popular at par, and Provincial Bonos at 4 premium.

Nothing done in National Bonds, but several parties offering to buy, no sellers.

Exchange looks very decidedly up, and some drawers gave way this morning and drew on France at 5.20 and on London at 49. As we anticipated, exchange is now much more freely offered not only by the houses but by the banks. Some of the large houses are fully aware of the splendid business they can do by drawing now, selling the gold cash and buying the gold for July and August, and we heard of some transactions of this kind to-day, but the drawers missed their spring and held back too long, and a large exchange operation of this kind say for two or three millions of francs is at present almost impossible, as except the banks there are no large takers in the market.

May 27th

The gold market opened very firm, and spite of all the pressure of projects, &c. advanced 5 cents and held to that advance, closing at 28.45, being ten cents over Tuesday's price. The cash sales amounted to 55,474 pats, but the sales for the end of the month amounted to 279,000 pats. evidently liquidation purchases, prices advanced from 28.40 to 28.50, but then stopped and closed under at 28.45. Time prices also advanced to-day for end of June to 28.10, and for end of July 28.

Cedulas advanced slightly under purchases for end of month and June. National Bank Shares held very stiff, and on the heel of this month's liquidation a new speculation in this stock may be looked for. The article in the *Patria Argentina* this morning showing the splendid business that now must fall into the National Bank, and which will give the shareholders at least a fifteen per cent per annum dividend, was much spoken of on 'Change, and of course tends to improve the stock. Prices for cash held even at 93⅞, the chief business was for the end of June closing at 94⅛.

Provincial Bonos very firm at 4 premium, and Emprestito Popular at par.

Tramway Belgrano shares seem to have caved in a little, and dropped from 73 to 68, a small lot cash sold at 65. The impression on the Bolsa is that the stock has a future. Roads and Bridges sold at one premium, and many buyers at this rate, but none to be had.

The nomination of Mr Antonino Cambaceres on the Water Board has given the greatest satisfaction, the right man in the right place.

An article in yesterday's *Patria Argentina* on free banks has attracted much and merited notice, and finds great favour in commercial circles, since it smoothes the way out of many financial difficulties caused by bank privileges and bank monopolies that have so long checked this market. The following is the scheme proposed:—

Art. 1st—The consolidation of the debts due by the National Government and Provincial Government to the Bank in Fondos Publicos of 5 per cent interest and 1 per cent amortisation.

Art. 2nd—The emission of 50,000,000 pats. in Fondos Publicos for the payment of the above, and also for the amortisation of the Foreign and Home Debt.

Art. 3rd—A law granting to every bank that applies to the National Government the right of emission of National Bank notes for an equal amount of their capital, and conditioned on their depositing in guarantee of said emission a like amount of Fondos Publicos of 5 per cent; and their holding in their treasury gold coin to the extent of 25 per cent of their emission.

Art. 4th—The maximum of said emission in the Republic to be 60,000,000 pats gold.

Art. 5th—National guarantee for the conversion of said notes to be received at their par value in all the Public Offices.

Art. 6th—Said issue to be convertible into National coin, and the taxes and budgets to be adapted to said coin.

Art. 7th—Said emission and said National coin to be legal tender throughout the Republic.

It is quite evident to all who study this currency question that we are fast driving to some such plan as embodied in the foregoing; and the first step towards this new financial system is the Romero project.

May 28th

The gold market was another battle field between bulls and bears to-day; prices opened very stiff for cash at 28.45 and rose at once to 28.50. For next Tuesday the demand was even stronger than for cash and the market rose to 28.55, but before the ring closed the Government broker came up and sold 40,000 pats, which flattened down everything, and prices at once fell under the impress that the broker was selling for the loan. The cash sales amounted to 163,400 pats, and the liquidation sales for Tuesday amounted to 629,000 pats. For end of June 245,000 pats sold, starting at 28.15, dropping to 28.05, and closing at 28.15. Sales for September at 27.60. The total sales for the day amounted to 1,107,400 pats; rather a large day's business.

Cedulas show firmness under the belief that money next month will be very abundant, and that all eight per cent stocks will be very scarce in this market; many parties have bought for June and July in the expectancy of having money on hands and no means of employing it until the winter is over.

National Bank Shares show increased firmness and rule for cash and Tuesday at 94, and for end of June at 95. The speculation in this stock will become more active when the month's liquidation closes, as many think that a large amount of the stock must come on the market at the end of the month, requiring millions to carry it.

Exchange was done yesterday afternoon at 49¼ and to-day bills offered at the same rate, but few takers. In fact except the Bank there are no takers worth talking about, and as the prospects are that next week the Government will begin drawing against the loan the Bank holds back to see the rate at which the first bills will be passed.

May 30th

Gold opened very hard, and the bulls exultant marked an advance of 5 cents; there was very little sold cash, which proved the great effort made to bolster up the market. Sales for to-morrow's liquidation amounted to 262,000 pats, opening at 28.55, selling up to 28.60 and closing at 28.55. For the end of June 417,500 pats sold at 28.10, and for September, October, November and December at 27.60. Scarcely had the ring closed when the floor of the gold liquidation room gave in with a tumble of 15 cents. Before the English brokers had time to run round to the Bodegt for lunch gold was selling cash at 28.45, and such was the stand-from-under feeling in the gold market that many spoke of 28.20 as to-morrow's closing rate.

Cedulas resist the power of the bears and closed up at an advance of ½, and business for June hard at 97½.

National Bank Shares reflect the liquidation; over a thousand were thrown on the ring for to-morrow, and prices tumbled from 93½ to 92½, but they at once rebounded and closed firm at opening rate; buyers for July offering, but no sellers; one holder asks 93½ for that date, which as the dividend will be payable on 1st August is about the same rate as to-day's cash price. The stock looks very speculative, and will probably before July be carried over par.

Belgrano Tram Shares weak and offered; the stock is not in much favor, and buyers pretend 55.

Exchange spite of everything said to the contrary rises. £20,000 best American paper pass das 49 on Saturday and 49½ to-day, but at these rates no more takers. The Western Railway has not yet drawn, and to-day was negotiating its exchange with the Provincial Bank, where it is probable the business will be passed; but at 3 o'clock to-day it was very freely said that the German brokers were selling gold for about two millions of francs in exchange, and this of course had an instantaneous effect on the market.

May 31st

The gold market opened hard at 28.50, dropped to 28.45, and closed at 28.50; close on 700,000 pats were sold cash to close the liquidation, and the opinion is general that owing to the Provincial Bank cashing all the bank checks running in the market and falling into the Provincial Bank, the Directors were acquainted with the necessity of selling some of the gold it took off the market in order to ease the month's liquidation; but the gold could not be sold at the price the Bank fixed, and it is said that consequently so much more gold hangs over yet to be sold in the ensuing month. The strings of the market were perhaps never tighter drawn, but the profound universal and firm conviction that 'curso forsoso' is doomed, and that the country is rapidly rising to par had even a greater effect than all the millions held by the Provincial Bank. Even up to yesterday there were men on 'Change who thought gold would close to-day at 28.80 or 28.90, but our prediction that Saturday's prices would be about Tuesday's closing rate proved correct to the letter, and the downward march of the gold market will not be unchecked by the incubus of an exorbitant month's liquidation. Gold for June was sold at 28.05, and for end of July at 27.95; very soon the figure of 28 will vanish from the gold black board.

Cedulas rose under the pressure of the liquidation, which very clearly shows how we stand with that stock. The pessimists were again beaten on the Cedula ground, and it was amusing to see men standing with the ready money in their hand to pay for stock that in many cases had to be bought in the liquidation room or withdrawn from the depo it safes of the Bank, to close up transactions. There was no mistaking the fact since the very coupons were cut off and handed over in an envelope, which showed, from whence the stock came. The truth is the market is swept clean of all 8 per cent stocks, and we look for Cedulas at a premium before the July coupon matures.

Nat Bank shares showed their strong back bone to-day, and people that stood back waiting to buy up at 90 found that when the stock touched 92½ bottom, and a very hard bottom was touched and the stock rebounded. Three thousand shares were done cash, and 1750 for end of June. This stock will now look up just in the ratio as gold looks down. Surpassingly important is the fact that in such an enormous liquidation everything was met, with honour. The battle is over, and never since the Bolsa was built was there so heavy and so mellifluous a liquidation. In shares all capitalists and men with money made splendidly, in gold all who looked up and believed in the country came out right, as will ever be the case when public affairs are on a good sound footning.

June 1st

The Bolsa opened this morning with radiant energy and sonorous 'vibrations'; the liquidation, the heaviest ever witnessed in this market, had closed without the default of a single share or patacon, but the gold market betrayed rather revolution than reaction, and the dissembling monarchs of the ring—the bulls—shook in their shoes until the bell rang the knell of parting day, and they were comforted that still the figure of 28 appeared on the black board. Before, however, the brokers had time to run round for a mouthful of lunch there were Huguenots offering gold cash at 28, and all the surroundings of a stampede were unmistakeable in the hall. At last there seemed a rent in the 'curso forsoso' curtain; people who for months past groped their way in the dark at last caught glimpse of a ray of light; gold at 27 seemed now possible, and there were many who, convinced that the Provincial Government is determined to abolish forced currency consider that gold at 26 is dear.

As is ever the case when any great market change is noticed, the Germans are the first to be named. It was the Germans to-day, they all said who turned everything, they are now selling on time so cheap that there was no hope for the price cash. The Germans are now doing what they should have done a month ago, namely pass their exchange for nett clip at 48½ and sell their gold at 28.90. To-day the operation is impossible, but still the very heavy sales for succeeding months are all for account of the wool on the sheep's back, and this year the season has proved so favorable we shall have such a clip the like of which was never before known in the Plate.

Gold opened with a bap at 28.30, it dropped gently to 28.05, and closed at 28.10; 129,000 pats sold cash. For the end of June over a million sold, beginning at 28.05 down down to 27.85, and the bulls closed the price for that date with satanic grins at 27.90. For July trifles sold at 27.70.

June 2nd

The gold reflects the improved position of the country. It is no longer the question how much has gold gone up, but how much has it gone down. The 'curso forsoso' people are in tears, and at the rate things are marching in this market, without project or new laws, the market itself will come to specie payments. There seems now to be no upholding the market, since every news current tends to improve paper money. The telegram from Chile published in the *Nacion* this morning was so favorable to this country and the final peaceable solution of our limit question that it almost rivals in importance the news from Paris about the loan, whilst on the heel of all this good news comes the announcement of the signing of the contract to-day by a leading German house for the Provincial Rischuelo Loan of £300,000 at 86 free of commission, and the gold to be brought into the country by the contractor. On pretty good authority we also have it that the Provincial Bank telegraphs to London for its gold; that at last the Board means to discount first class paper in gold. And the greatest of all news is that some fine morning there will be notice in the papers that so many months ahead from date the Bank will pay gold for its notes at the rate of $26 m/c per patacon.

No wonder with all this news current, and some other items equally important, which at the moment we cannot publish, the gold bulls stood round the ring with a tear in their eyes. In phalanxes comes good news in the country, and although it is much to be regretted that many allow business or private interests to blind their judgment, still all must congratulate Gen. Roca on his victory over curso forsoso, as pronounced as his triumph over the Indians.

Gold opened at 27.75 cash, and dropped down to 27.50, closing at 27.65; the fall since yesterday is about 45 cents; we have seen gold rise in less time 100 cents, but nothing was thought of it; sharp enough were the cash sales, 101,620 pats ready gold, and they say more would be sold, but the price could not be got. There is some talk of gold coming up this morning from Montevideo for sale here, and also gold coming from Rio, but these may only be mere rumour; what the market has to prepare itself for is the Minister of Hacienda's exchange; when that comes on the market some people will find gloves at Sommers. For the end of the month, 960,000 pats sold, opening at 27.65, selling down to 50, and closing at 55. For Dec. sales at 26.85. Some of the little exchange book tables are now no use, the computations being from 25 upwards.

The gold sales reached 1½ million.

Cedulas took a bound to-day, and people that gave their brokers orders in the morning to buy 100,000, only got 20,000. One German broker took nearly every lot offered; the belief is that like Roads and Bridges, and Treasury notes, they will soon be 5 premium. They say on Change that the Nat. Government offers to buy the bank building; 138,200 Cedulas bought cash.

Nat. Bank shares were pushed down by the men who want to buy more, but the belief is that before the dividend they go to par.

BIRTHS

On May 9th, at the estancia Las Doce, Nueve de Julio, the wife of William C. Noon of a son.

On the 27th inst. the wife of John B. Wanklyn of a daughter.

May 27th at Cangallo 606, the wife of John J. Gahan of a daughter.

May 21st, at Montevideo, the wife of Thos. C. O'Neill, of a son.

On the 18th ult. at the Estancia Valle Ste. Anna, the wife of Mr Robert Bruce, of a daughter.

On May 31st, at 580 Esmeralda, Mrs B H Murray, of a son.

On May 31st, at 747 Calle Charcas, the wife of Mr Gustave Lahusen, of a son.

MARRIAGES

At Petropolis, April 28th 1881, Bernard Byrne, Manager of the Brazilian Steam Navigation Company, to Laura Charlotte Le Cesne, youngest daughter of the late Luis William Le Cesne. No cards.

On the 23rd inst. at St. John's Church, by the Rev. F. Smith, M. A. M. D., Henry Esser, second son of Phillip Warren, of Wilton House, Southgate, England, to Lucy, eldest daughter of John S. Miles, of this city. No cards.

DEATHS.

At the estancia Sajones on the 24th of May Christian Dunlop, a native of Haddingtonshire, Scotland, aged 64 years.

On 21st May, at Cadiz Gen. Lavalle 1054, William Edward Sc tt, aged 58 years and 7 months, born in Newark, New Jersey, United States.

On 31st May, at Buenos Aires, Robert Candlish, native of Kiroudbright, Scotland, aged 38 years.

May 27th, William Hendric, aged 40, formerly of Glasgow. Deceased was a well-known gasfitter, and died suffocated by a sudden escape of gas from a pipe at which he was working. Scotch papers please copy.

Compra hecha a dinero efectivo
En virtud de Ley de la Legislature
Campo flor
Grandes Bosques
Aguadas
Permanentes
Apropiado para ingenio de azucar
A 10 leguas del centro de las grandes colonias de Santa Fe, a solo 18 leguas del candaloso puerto y Rio Parana.
Base infima $1500 de curso legal
Por legua 5,000 varas
AL CONTADO
Espleñdidos titulos, 1º Ley de la Legislatura 2º declaracion del gobieno, 3º informe del Coronel Obligado, 4º informe del Departamento de Topografico, 5º (Ojo) informe profesional del acreditado escribano Sr Victoriano Cabral declarando perfectos e inmejorables los titulos.
Lunch (del Aguila), Champagne
En nuestra casa San Martin No 51
El Miercoles 6 de Julio
A la 1 en punto de la tarde
(El lunch a las 12)
Venderemos por cualquier precio por cuenta exclusiva de sus propietarios:
Cien leguas de campo, en lotes desde 2 hasta el numero que se desee.
Importantisimo, leer esto
La practica nos ha enseñado, como asi mismo las indicaciones de nuestra amistosa clientela, que no debe lanzarse a rematar ninguna propiedad de cuya bondad de titulos no tenga la casa confianza y seguridad absoluta, por cuya razon hemos trabajado mas de dos meses hasta reunir toda la documentacion necesaria para presentar en venta esta zona importante de tierra, sin que los interesados tengan neces dad a pedir datos.
Hemos impreso un folleto, que contiene; 1º El plano de Santa Fe y su vecina, Santiago del Estero. 2º El informe del Gobernador de la Provincia, declarando ser propiedad de los Canepa el campo a venderse, acompañando copia legalizada de la ley que autorizo la venta y reconociendoles el derecho a su enagnacion. 3º Carta del Señor Obligado que ha reconocido los campos (durante anos) determinando su ubicacion, buena posible, ventajas de su adquisicion, condiciones, etc. etc. 4º Planos del campo a venderse, con determinacion de lotes y la ubicacion de todas las importantes colonias con que se avecinan. 5º Nomina de los linderos y establecimientos importantes inmediatos. 6º Informe escrito del estudio hecho de todos los documentos y titulos por el acreditado escribano Sr. D. Victoriano Cabral, que los declara inmejorables; y finalmente todo lo pertinente al conocimiento de lo que debe adquirirse.
Este folleto, ass como las entradas para el lunch, se entregaran en nuestra casa a las personas que se dignen venir a solicitarlo.
Pormenores
Estos campos distan solo 5 leguas de las colonias Sanchales y Espin [sulzo] y 7 o 10 de las estancias de Escalada, Ramayon, Coronel Obligado y hermano, Dr Pedro Palacios, Banco de Londres, Coronel Lacueva, Coronel Jabson. Linden a mas con los Sres W Peats y Ca, Dr Lawsen, Meyer, Oznizz, Duchiwitz, Altgelt, Napp, Lotsssan, Bonorme, Newton, Mulhall y otros, que adquieren en la misma forma hacen diez anos.
La traza del ferro carril de Santa Fe a Santiago, cruza estos campos y se radicara una o dos estaciones en ellas.
Con la base fijada, no se habran puesto en venta campos mas baratos y si se habran adquirido jamas mejores como calidad, pues el Sr Coronel Obligado dice en su informe que son SUPERIORES a los del Sud de Cordoba y a los del Departamento del Rosario.
Hay campos linderos, que se han vendido (y mostraremos el certificado) a 3000 $ fts. la legua.
En la colonia Espin, donde existen mas de 150 familias fundada por el Sr Benitez, se venden las concesiones a 200 $ fts de solo 36 cuadras, luego la legua ha producido ya unas onzas de oro, en 30 concesiones.
Los campos estan mensurados judicialmente perfectamente amojonados con grandes postes de nandubay.
Hoy dia, la casa bancaria de los Sres Murrieta en Londres, esta recibiendo los campos del Chaco, del Gobierno de Santa Fe, en pago del empresti to a razon de 1500 $f por legua, y estos son superiores y mas cerca de la capital.
Para terminar: la familia Canepa, es propietaria en el Rosario y esto redobla la garantia.
Por informes, folletos, planos etc, a nuestra casa San Martin 51.

Padrillos Clydesdale
ESPLENDIDO LOTE
ELEJIDOS
por el senor
J. W. Nash
Llegaran el 20 del corriente, en el vapor
INGLES MASKELYNE
En nuestra casa,
51—SAN MARTIN—51
En la proxima semana y a las 12 del dia, venderemos a cualquier precio, sin retirar ninguno de los animales puestos en venta y al contado, este magnifico lote, que lo constituyen animales de diversas razas, los cuales han sido adquiridos personalmente por el senor Nash, no en los rodeos sino en las ferias que es donde unicamente pueden conseguirse los mejores, puesto que los dueños del rodeo esperan LO MAYOR para las ferias. Segun el Sr Nash la mayor parte de los animales han sido premiados.
Llegaran vacas, toros, potrillos, yeguas de carrera y un lote elejido de carneros Lincoln, el todo como no se ha presentado aun aqui.
Lo prevenimos pues a los hacendados.

Tres Leguas de Campo
EN
LINCOLN
Sobre Establecimientos valiosos,
Campo reputado superior.
Base de venta $120,000 m/c. por legua.
En nuestra casa
51—SAN MARTIN—51
El Miercoles 22 de Junio
A las 3 en punto de la tarde,
Por orden de quien pertenezca, un terreno de estancia situado en el Partido de Lincoln, campo reconocido como superior por sus excelentes pastos, sus buenas aguadas y cañadas.
El campo mide una legua y media de frente por 2 de fondo, y esta rodeado por los campos del Sr. Don Antonio Lopez, Duggan, Castillo, Costa y otros.
Su base de venta es sumamente baja, y como para despertar la codicia en los especuladores.
Los titulos son superiores. Para verlos, como asi mismo para conocer la ubicacion del campo en el plano respectivo que tenemos, ocurrir a nuestra casa San Martin 51.
NOTA—Este campo tiene una deuda al Gobierno de la Provincia en 7 letras de $23,000 m/c cada una, que el comprador podra tomar a su cargo si le conviniese.

De 50 Carneros

Negrete Argentino

Sangre pura original Negrette

De la cabaña

EL ROSARIO

De los Señores

Francisco Chas e Hijos

El Jueves 22 de Setiembre

A la 1 del dia

Remataremos a la mas alta postura y dinero de contado por cuenta y orden de los señores Francisco Chas e hijos y procedentes de su afamada cabaña El Rosario.

50 esplendidos carneros Negrete Argentinos cuyo merito se encuentra acreditado por los siguientes premios.

Primer premio en la Exposicion Internacional de Filadelfia, id id Rural Argentina de 1876, id id 1878, id gran id medalla de oro en la Exposicion Universal de Paris 1878, id id id Exposicion Rural Argentida 1880.

Los Sres Chas con el objeto de rematarlos en esta ciudad han rehusado venderlos particularmente, no obstante de haberseles ofrecido elevadisimos precios como podemos probarlo con nombres propios.

Prevenimos que se ha elejido para la venta el dia 22 de Setiembre con el objeto de que puedan los compradores usar los carneros que compren inmediatamente y sin esperar la estacion oportuna (Octubre 1) con gastos y trabajos como habia sucedido efectuada dicha venta antes del dia mancionado.

Los animales estaran en exhibition en nuestra casa Alsina 78, cinco dias antes del remate y los interesados podran reconocerse examinandolos si exageramos calificandolos de excepcionalmente sobresalientes.

Within reach of all

2½ Leagues

OF

THE BEST CAMPS

IN

ENTRE RIOS

IN FRACTI NS OF

100 squares of 150 varas

Suitable for

Small Estancias or first class Chacras

ON JULY 10th

At 2 p.m.

I shall auction, by order of the proprietor, this splendid camp, situated in the Department of Villaguay, on the borders of the Department of Uruguay, 14 leagues from the capital of the Province and 5 or 6 from the town of Villaguay. It is surrounded by important establishments such as those of Don Aurelio Jorge, D Eduardo Almagro, D Teofilo de Urquiza and the heirs of Benitez. The pasture is of the first qua ity suitable alike for sheep and cattle or for agriculture, the greater part being black vegetable earth, 50-60 centimetres in depth.

Persons interested in seeing the land can take the bus which leaves Uruguay for Villaguay on Mondays and Thursdays, and will leave them at the estancia of Don Teofilo de Urquiza, where they will find a person to shew them the land.

Advantageous conditions of sale

The sale will commence at the upset price of $fi or $100 m/c per square of 150 varas, payable as follows—¼th part on signing the deeds, and the remainder in instalments with interest at 1 c/o monthly at 1, 2 and 3 years.

A better opportunity cannot be offered to acquire a good piece of land. In this Province $200 per annum is paid per square of land for agricultur and we offer to sell the property for the half of what is paid here for rent, bearing in mind that this land is admirably situated for agriculture on a large scale not only by the fertility of the soil but also for the facility of river transport. The title deeds, which are in the best order, will be delivered GRATIS to the buyers.

The auction will take place in my office, San Martin 90, on the day and date named. For more particulars apply at my office.

Note—Our object in offering these lands on such convenient terms is to attract a population of agriculturists and labourers to these very fertile and productive lands.

Ferro-Carril Central del Norte.

LICITACION.

Se reciben propuestas para la provedurio de raciones en los trabajos de prolongacion de este Ferro-Carril, bajo las condiciones siguientes—

Art. 1º La racion se compondra de los articulos siguientes en las proporciones que se espresan—

RACION TIPO.

1280 gramos	igual a	3 lb.	carne
0460 "	"	1 "	galleta
0460 "	"	1 "	maiz pizado

EQUIVALENTES.

0057 gramos	igual a	2 onz.	arroz
0260 "	"	1|2 lb.	pulenta
0014 "	"	1|2 onz.	cafe molido
0028 "	"	1 "	yerba
0057 "	"	2 "	azucar
0057 "	"	2 "	sal

Todos los articulos seran frescos y de buena calidad, debiendo ser ademas la carne de animal sano y no cansada y de calidad de blanca arriba.

La galleta sera de harina de trigo sin mancia y de 10 en libra. El azucar sera blanca.

Art. 2º Las raciones se distribuiran diariamente a los trabajadores en los campamentos o en el lugar de los trabajos en la forma y oportunidad que determine la Direccion, debiendo en todo caso constar cada una del total de los articulos componentes, ya sea que se distribuya a rancho (cocido) o en crudo, de conformidad con la racion diaria.

El trabajador o la Direccion podra pedir el equivalente de cada articulo de la racion tipo, segun la anterior especificacion y el contratista estara obligado a hacer esta sustitucion por el precio estipulado.

Art. 3º El contratista estara obligado a establecer y mantener esta proveduria con los elementos y personal suficiente para atender este servicio en toda la linea, en cualquier momento y en la estencion que sea requerida a satisfaccion de la Direccion.

A este objeto mantendra en cada campamento un agente permanente, encargado de recibir y hacer llenar los pedidos que se le hagan en la oportunidad debida.

Estos pedidos seran hechos con la anticipacion necesaria y en la forma que lo estableciere oportunamente la Direccion, debiendo en todo caso especificar la clase de racion (cruda o cocida) su numero y lugar de distribucion.

Art. 4º La Direccion tendra absoluta intervencion y control de este servicio, a objeto de verificar si los articulos de consumo son de la clase especificada y si el racionamiento se hace con arreglo a la relacion diaria A en la proporcion o cantidad del contrato.

Todo articulo de mala calidad o sospechoso de nocivo sera rechazado en el racionamiento y prohibido su uso en toda la linea.

Art. 5º La provision diaria correspondera a un numero de cien raciones como minimum y a un maximum de 3000, tres mil variable, en el intermedio segun el personal empleado; este maximum podra aumentarse con aviso de un mes anticipado y por el precio estipulado.

Art. 6º Los pagos se haran mensualmente en la oficina de la Direccion en Tucuman, en los primeros ocho dias de cada mes, por las raciones entregadas en el mes anterior, segun certificado espedido por el agente autorizado por la direccion de los trabajos, previa la bracion correspondiente.

Art. 7º No se permitira la introduccion de licores espirituosos a los campamentos, su venta, ni la de armas de cualquiera clase.

Art. 8º Los presupuestos especificaran el precio por racion, en pesos fuertes de curso legal, en cuya moneda se verificaran los pagos.

Art. 9º Cualquiera dificultad, deficiencia o demora por parte del contratista en el cumplimiento de su contrato sera llenada o corregida por el encargado del trabajo en la forma estipulada por cuenta del empresario sin lugar a reclamo.

Los gastos que se originen por esta causa seran cubiertos con el deposito de garantia y con el 10 c/o de retencion sobre cada pago, que debera hacerse de conformidad con lo establecido en la Ley de Obras Publicas; todo sin perjuicio de las demas acciones a que hubsere lugar segun contrato.

El deposito de garantia sera reintegrado cada vez que sea usado en todo o en parte, en virtud y a los objetos de la estipulacion anterior.

Art. 10. El contrato no podra ser tranferido sin la aprobacion del Gobierno.

Empezara a regir a los quince dias de aprobado y durara mientras los trabajos de prolongacion se efectuen por administracion en la forma autorizada. Podra ser rescindido con tres meses de aviso anticipado.

Art. 11. El diez por ciento que se retiene de cada certificado mensual sera devuelto al fin de cada año en su totalidad al verificarse la liquidacion anual, si no ha sido necesario disponer de una parte de este al objeto indicado en el Art. 9º; en el caso contrario sera retenido hasta la liquidacion final del contrato.

Art. 12. Las propuestas se recibiran en la oficina de la Direccion en Tucuman, hasta el 30 de Junio de 1881 a las 3 p.m., dia y hora en que se abriran en presencia de los interesados que quieran cancurrir al acto.

Una vez leidas las propuestas, se numeraran y formaran por el Director de los trabajos, se empaquetaran y sellaran para ser remitidas al Ministerio del Interior, para su resolucion con el acta de su referencia.

Art. 13 Las propuestas se presentaran en pliego cerrado, firmado por el proponente o proponentes, y seran acompanadas de un certificado de deposito en la sucursal del Banco Nacional en Tucuman, por la cantidad de los mil pesos fuertes en billetes a la orden del Director de las obras de prolongacion, ingeniero Matias G. Sanchez, segun lo dispuesto en la Ley de Obras Publicas.

Art. 14 El proponente que obtuviere la adjudicacion, de la licitacion, debera hacer el deposito en la sucursal del mencionado Banco y a la orden del Director de los trabajos, hasta la cantidad de diez mil pesos fuertes de curso legal en garantia de lo estipulado en el contrato y a los efectos de lo prescrito en el articulo 9º.

Art. 15 No se tomaran en consideracion las propuestas que se presenten sin los requisitos indicados o que se aparten de las presentes bases de licitacion, ni se admitira esplicacion, ni rectificacion alguna, verbal o escrita, una vez abierto el primer pliego de las propuestas presentadas.

MALTINE.

(Extract of Malted Barley, Wheat and Oats)

The Original and only Reparative Composed of these three Cereals

MALTINE is a highly concentrated extract of malted Barley, malted Wheat, and malted Oats, containing, undiminished and unimpaired, all the nutritious principles that can be extracted from these cereals. By the most carefully conducted scientific process we are enabled to offer a perfect article, possessing five to ten times the beneficial and nutritive merit of any alcoholic or fermented Extract o Malt.

"WHEAT and OATS are especially rich in muscular and fat-producing elements."—Liebig.

MALTINE will increase both weight and flesh in most persons of thin habit.

MALTINE is particularly recommended for delicate Females and for weak and debilitated Children and Infants.

For Deficient Lactation, and for Mothers whilst Nursing, MALTINE is especially recommended.

MALTINE is the most important combination for use in Constipation.

MALTINE is entirely free from all products of Fermentation, such as Alcohol and Carbonic Acid Gas.

MALTINE is very palatable and pleasant, and will be readily taken by the youngest child.

The Compounds of Maltine

Can undoubtedly be used with greater success than any other remedy now known in diseases of General and Nervous Debility, Indigestion, Imperfect Nutrition, and Deficient Lactation; Cholera Infantum and Wasting Diseases of Children and Adults; Convalescence from Fevers, and whenever it is necessary to increase the vital forces and build up the system.

For Consumption and Wasting Diseases

MALTINE with Cod Liver Oil—The most perfect emulsion and most agreeable and effective mode of administering this nauseous but valuable Oil yet discovered.

MALTINE with Hypophosphites.—This preparation is specially indicated in Consumption, Rickets, and deficient Ossification.

MALTO-YERBINE.—A most palatable and efficacious remedy and substitute for Cod Liver Oil in the treatment of Consumption and Wasting Diseases; also the most perfect remedy yet produced in Chronic Pulmonary Affections, Coughs and Colds.

Agents

A. EASTMAN & CO., B. Aires

Anglo-American Drug Warehouse,

Aviso Oficial.

Ministerio del Interio

LICTACION.

En la Secretaria del Ministerio del Interior, se recibiran propuestas para la provision de cincuenta mil traviesas de madera dura para la prolongacion del Andino, con arreglo a lo dispuesto en el capitulo 2º de la ley de Obras Publicas y las siguientes bases.

1º Las propuestas se presentaran en pliego cerrado con la firma del proponente o proponentes y seran acompanadas de un documento en que conste haberse efectuado el deposito en el Banco Nacional de mil pesos fuertes en billetes de curso legal a la orden del Gobierno nacional, segun lo dispuesto en el articulo 10 de la ley de Obras Publicas.

2º Las propuestas se entregaran al escribano del Gobierno nacional hasta el dia 30 de Junio de 1881, a las 3 p.m., dia y hora en que seran abiertas en presencia de los interesados que quieran asistir al acto.

3º Todas las traviesas seran de madera dura, quebracho o urunday, bien rectos, de seccion rectangular, sin altura y de caras perfectamente Planas.

4º Las dimensiones tipicas de las traviesas seran: dos metros setenta centimetros (2m 70) de largo; veinte y cuatro centimetros (0m 24) de ancho y doce centimetros (0m 12) de espesor.

5º Se admitira una tolerancia de cinco centimos (0m 05) en el largo, dos centimetros (0m 02) en el ancho y un centimetro (1m 01) en el espesor, asi como los que presenten una curvatura cuya flecha medida normalmente a cualquiera de las caras laterales no esceda de seis centimetros (0m 06). Se sobreentiende que las medidas establecidas deben tomarse libres de samago o albura.

6º La tolerancia a que se refiere el articulo anterior, solo sera aplicable a un numero de traviesas que no esceda del 20 p. cent en cada entrega, es decir, que el ochenta por ciento deberan ser de las dimensiones tipicas que se establecen en el articulo cuarto.

7º Las traviesas seran entregadas por el empresario en la estacion del ferro carril Central Argentino en el Rosario de Santa Fe, donde se efectuara la clasificacion y recibo de los que se hallan dentro de las condiciones de contrato, por el empleado o empleados del Gobierno, encargados al efecto por el Director de las obras de prolongacion.

8º Seran de cuenta del empresario todos los gastos en peones que origine la clasificacion y carga de las traviesas en los wagones del Central Argentino.

9º Toda traviesa que presente rasgadura o signo de putrefaccion, o que no este en las condiciones determinadas en el contrato, sera rechazada sin accion a reclamo alguna.

10º Toda traviesa rechazada sera sacada inmediatamente del recinto de la estacion de Central Argentino por cuenta del empresario, y en caso de no verificarlo en el termino de las veinticuatro horas siguientes a la en que tuvo lugar el rechazo, el encargado de la clasificacion y recibo, tendra el derecho de hacerlce sacar por cuanta del empresario, o de inutilizarlos de modo que no puedan servir para la via.

11 Las traviesas que tengan dimensiones mayores que las indicadas en el inciso 2º pero que satisfagan a las demas prescripciones del contrato, podran admitirse al mismo precio que las de contrato, siempre que tengan aplicacion conveniente a juicio del director de los trabajos.

12 Las traviesas se entregaran en seis periodos y en las cantidades siguientes:

1er	entrega	3000	traviesas
2	id	7000	id
2	id	10000	id
4	id	10000	id
5	id	10000	id
6	id	10000	ir

Su primera entrega debia verificarse dentro de los treinta dias de la fecha de la aprobation del contrato y las siguientes mensualmente, de modo que el total debera quedar entregado en un plazo de seis meses desde la fecha de la aprobacion del contrato.

13 Si el empresario no entregase mensualmente o en cada periodo, el numero de traviesas que se indica en el precedente articulo, abonara por cada traviesa que falta y por cada dia de retardo, un centavo fuerte de multa—Queda entendido que no podra el empresario completar el numero de traviesas que le falte de una cualquiera de las entregas, antes de haber verificado la entrega total de las que corresponden al periodo siguiente.

14 Si el empresario no entrega mensualmente el numero de traviesas fijado como minimo, el director de las obras de prolongacion podra adquirirlas en donde las hubiese en las condiciones del contrato, por cuenta de dicho empresario y hasta la concurrencia de su obligacion, usando al efecto del deposito retenido sobre cada pago, con arreglo a la ley de obras publicas, sin perjuicio de la multa establecida en la base anterior y de de la accion por danos y perjuicios a que hubiere lugar.

15 Los proponentes indicaran el precio de cada traviesa en peso fuerte de curso legal (billetes del Banco de la Provincia de B. Aires) en cuya moneda se verificaran los pagos.

16 El proponente a quien se adjudique esta licitacion, debera depositar en la sucursal del Banco Nacional en el Rosario de Santa Fe a la orden del Director de las obras de prolongacion, ingeniero Guillermo Villanueva, la cantidad de cinco mil ps. fts. en billetes de curso legal, lo que quedara como garantia del cumplimiento del contrato y no podra ser retirado hasta estar cumplidas las obligaciones en el estipuladas—Dicho deposito debera ser ademas reintegrado cada vez que sea ocupado en todo o en parte, en uso de la facultad espresada en la 12 base.

17 El pago de las traviesas recibidas se verificara, mensualmente del 5 al 10 de cada mes en la Tesoreria de la Administration del Andino, en Rio Cuarto, de conformidad con el certificado que espidan los encargados de la decepcion por las entregas del mes ant rior, con el visto bueno del Inspector, previa la liquidacion con arreglo a las condiciones del contrato, lo que prescribe la Ley de Obras Publicas y la correspondiente orden de pago del Director de las obras de prolongacion.

18 Terminado el contrato y efectuada la liquidacion correspondiente, el empresario tendra derecho a exigir la devolucion del diez por ciento retenido y la cantidad depositada en la sucursal del Banco Nacional, descontando las sumas que con arreglo al contrato se hayan deducido por multas.

19 No se tomara en consideracion las propuestas que se presenten sin los requisitos indicados o que se aparten de estas bases, ni se admitira esplicacion ni rectificacion alguna, verbal o escrita, una vez abierto el primer pliego de las propuestas presentadas.
